ALDELO EXPRESS

Intro to Aldelo Cloud POS

Aldelo's Cloud-native Restaurant POS system, Aldelo Express, is a full-featured restaurant tech platform to enable restaurants and bars simplify operations and maximize efficiency.

Aldelo Express Restaurant POS platform provides an end-to-end eco-system of products and services to help restaurants and bars achieve more with fewer staff.

Aldelo Express is simple to setup and easy to use. It's a truly complete Restaurant POS System.

Modern Restaurant Demands More

Restaurants today are faced with multiple challenges, from staff shortages, rising costs, increased customer service expectations, seamless online and in-store ordering experiences just to name a few.

Aldelo Express helps restaurants and bars overcome various challenges with its modern restaurant tech solutions, such as our popular iPad and Android based Restaurant POS, with easy to setup integrated Online Ordering.

Achieve More with Aldelo

Aldelo Express offers seamless third party integrated order and delivery services such as DoorDash and UberEats, and it's all part of the native experiences that just works.

Smart Kitchen Displays, Self-Order Kiosks, Table-Side QR Ordering, Fast Pay Wallets, Multi-Store Gift & Loyalty, Mobile Order & Pay at Table, are just some of our Restaurant Tech solutions that enable restaurants and bars to achieve more.

We're Ready to Help

Whether you're a restaurateur or a business servicing restaurants and bars, Aldelo's modern Restaurant POS Solutions is ready to help.

Aldelo offers 24/7 live tech support, automated app updates, and our restaurant pos solutions are hardware independent for maximum flexibility.

Give us a call at 877-639-8767 to discuss your needs, and our product advisors can tailor a total package based on your requirements.

iPad or Android as a POS System?

Seamlessly Cross Platform

Cross Platform By Design

Aldelo Express Restaurant POS system is cloud-native and device independent. Regardless if your preference is iPads or Android devices, our restaurant point of sale allows for maximum flexibility to mix and match hardware.

Imagine having the ability to get started with Aldelo Express using iPad, Android Tablet, or even Android Mobile, and then expand by adding a mixture of other devices best meeting your needs. When you choose Aldelo Express, you have complete flexibility to mix and match iPad or Android devices as your restaurant grows.

How About Both Options

## Effortlessly Mix & Match

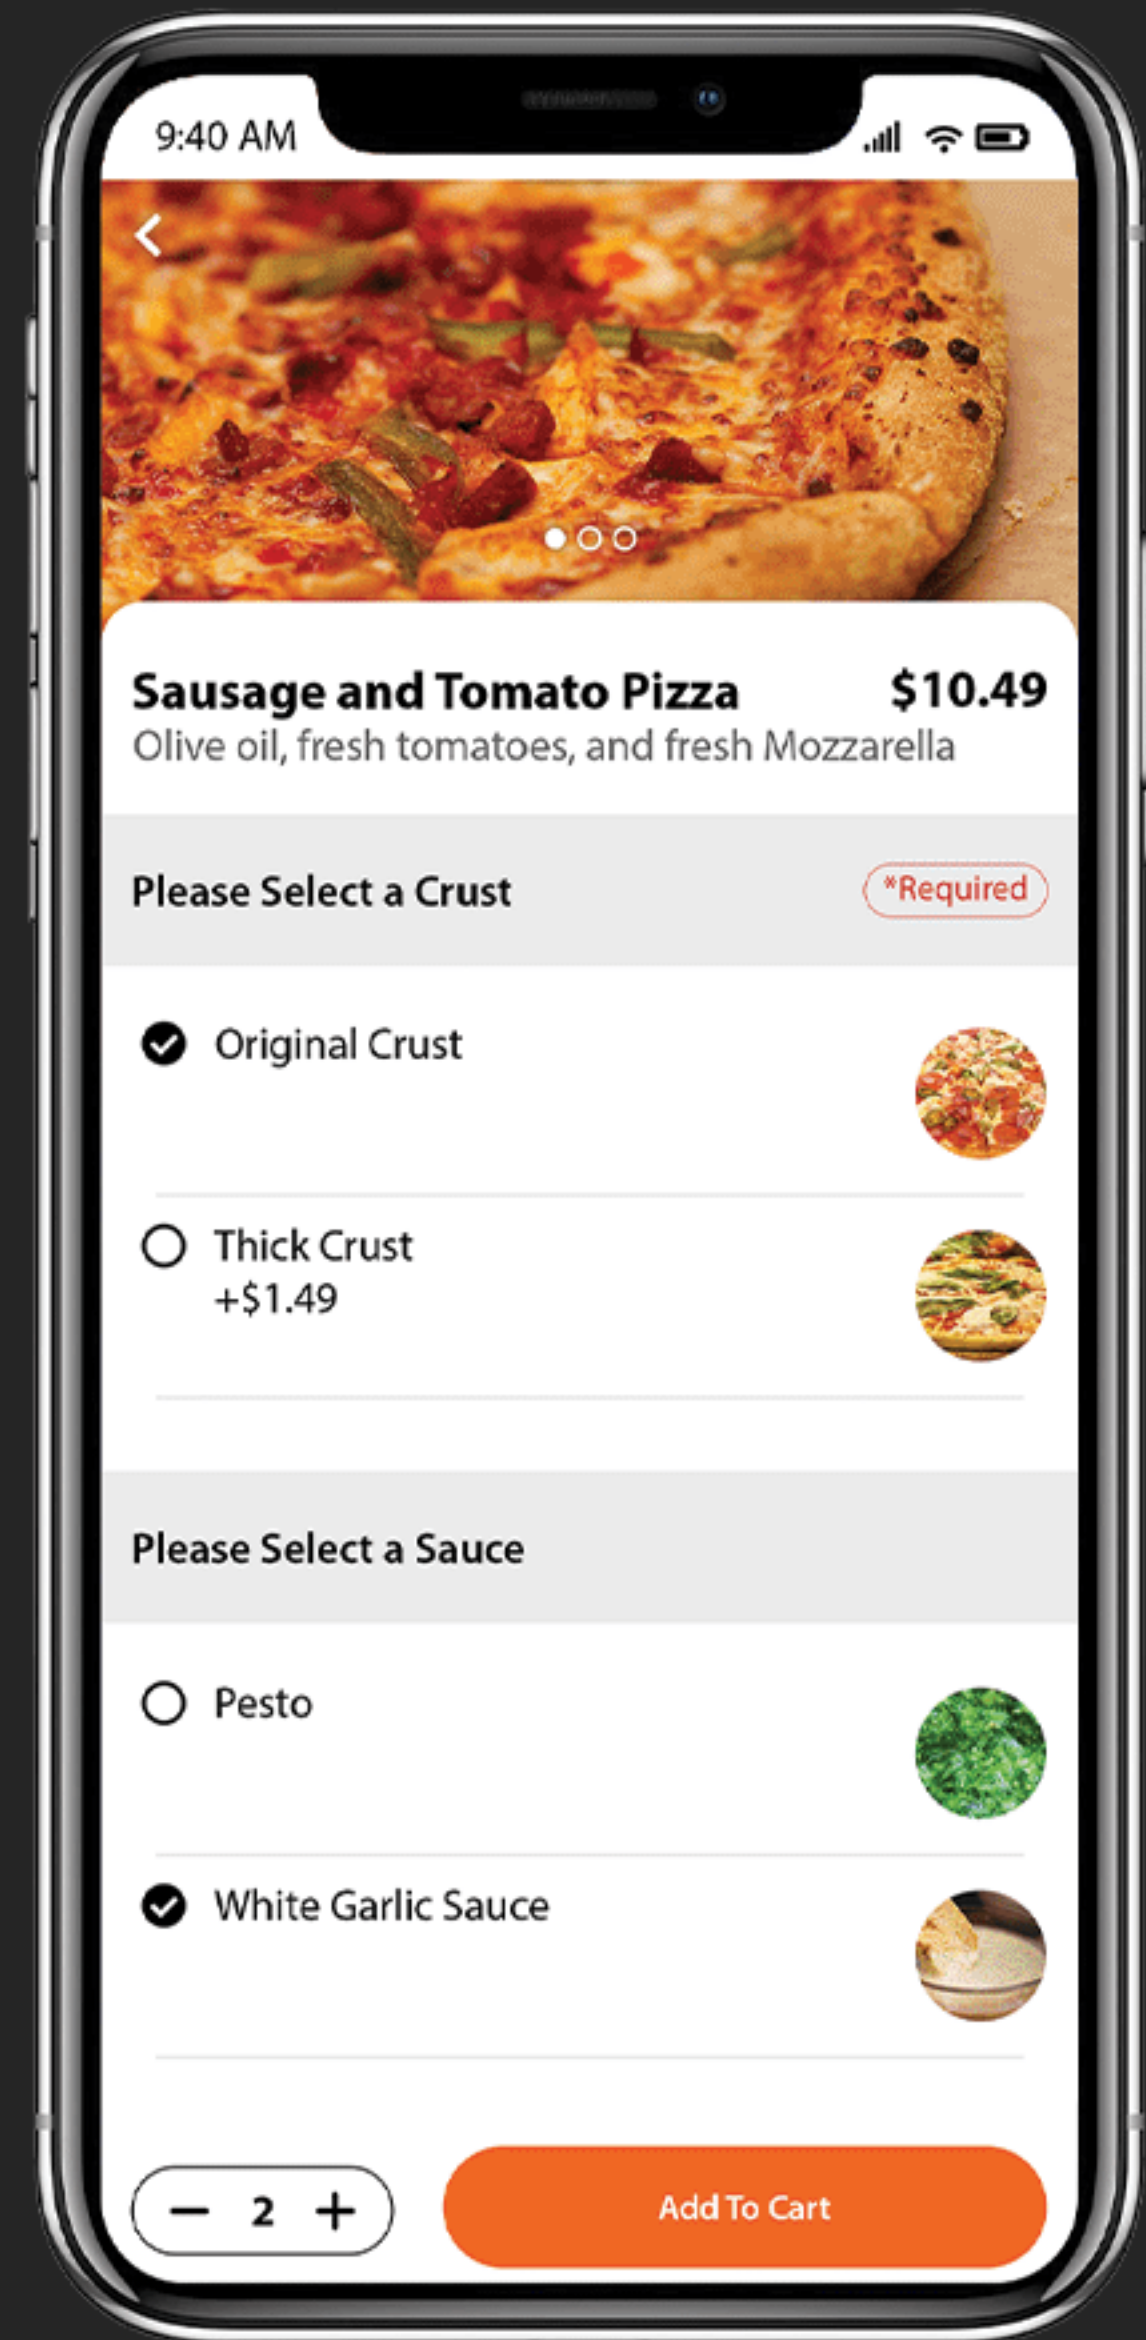

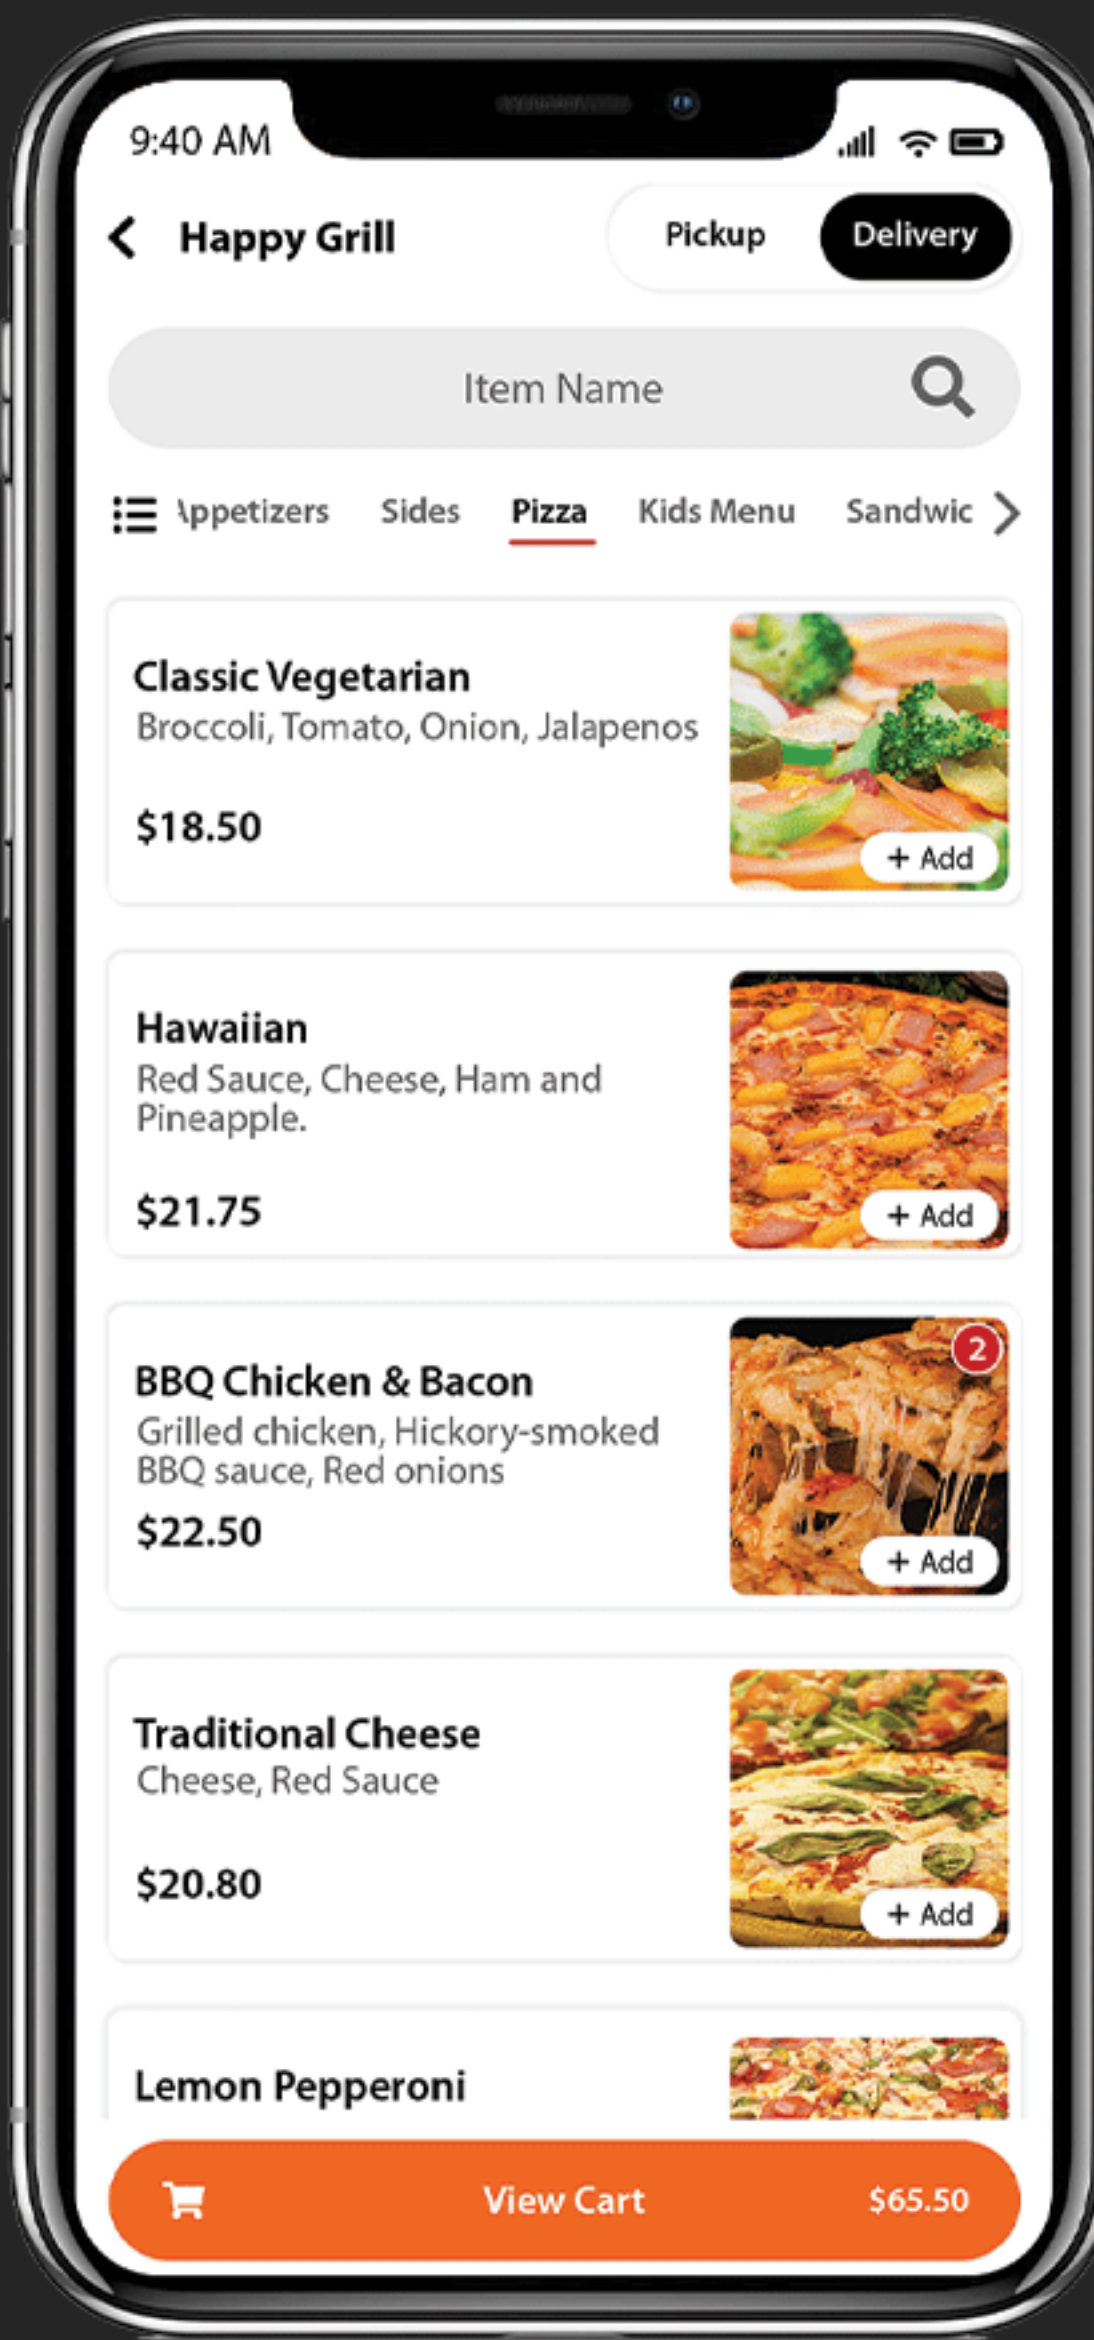

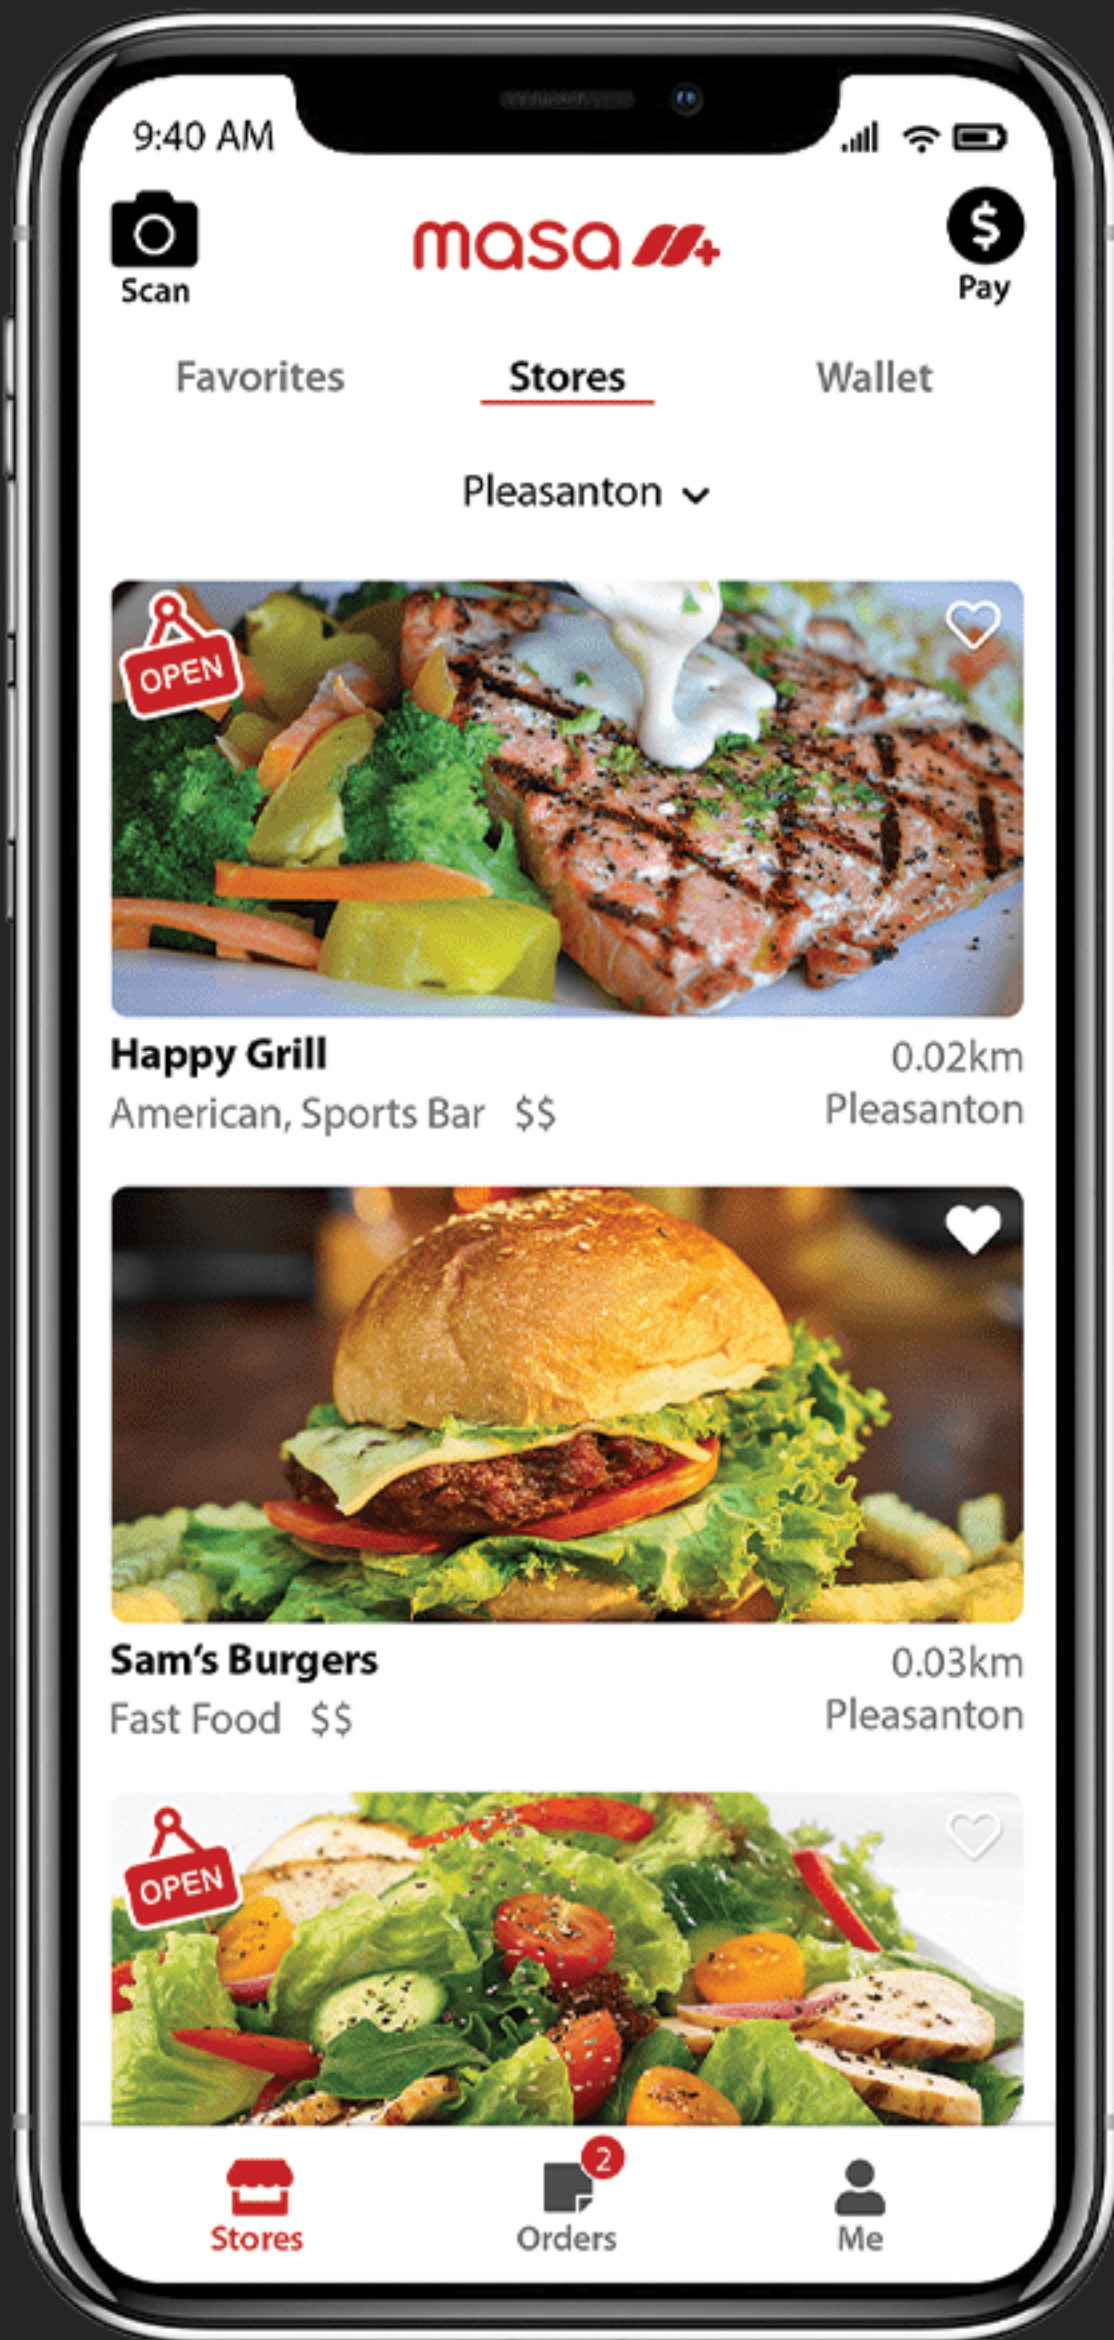

Deploy Without Complexity

Unlike other restaurant POS systems that require involved setup process and deep learning curve, Aldelo Express Restaurant POS solutions are simple to setup and use in minutes.

Getting started with Aldelo Express Restaurant POS is as easy as an app install from Apple App Store, or Google Play Store from your preferred device. Menu setup and go-live is intuitive and easy.

Best of all, if you have any questions, our 24/7 Live Support is standing by to assist.

Restaurant Productivity Enhanced

## Kitchen Display, Kiosk and More.

Modern Restaurant POS

Gone are the days of a traditional POS System where it operates as a silo with cloud as an after-thought. A modern Restaurant POS solves modern restaurants' challenges, providing a seamless experience both online and in-store with a cloud-native and resilient approach by design.

Aldelo Express Restaurant POS employs a cloud-native focus for maximum scalability and stability, while eliminating all of the routine in-store system complexities and maintenance needs. Aldelo Express enables modern restaurants to focus on their operations.

Integrated Payments Made Easy

Credit & Debit. Contactless. Gift & Loyalty.

Seamless POS & Payments

Aldelo Express Restaurant POS comes with fast and secured integrated payment processing.

Whether credit card or debit card, EMV chip cards or NFC contactless, Apple Pay or Android Pay, multi-store gift or loyalty, customer receipt scan & pay, or even table service Pay-At-Table, our Restaurant POS system handle them all.
